Dear Friends,

We recently received your five cartons of school supplies and toys you collected for the Ethiopian children in Israel. On behalf of NACOEJ and the children, please accept our sincere thanks for this very useful and needed assortment.

The families of the Ethiopian children who attend our after-school remedial classes (Limudiah program) can rarely afford to spend their meager earnings on school supplies and toys such as the ones you sent us. These items will be distributed where they are most needed and always greatly appreciated. You have also contributed to the self-esteem of these children when they realize that people from so far away care about them. It is a mitzvah indeed!

Again, thank you to all the people involved in this fine deed.

Sincerely,

Miriam Weissman  
NACOEJ – New York

P.S. If you know of any families or groups who are traveling to Jerusalem and are willing to take a duffel bag of school supplies for us, please have them contact us. This is the only way we can get these materials to Israel. Thanks.
